Teaching method

Practical work accounts for around 40% of the course. To that we add **40% of theory** and **20% of discussion** between participants and trainers, to ensure that the content is adapted to each participant's individual context. A "red thread" product will be used as a case study to run all the workshops.

Our trainers

Our training courses are led by one of our **experts**. They are simultaneously **trainers**, program **creators** and **consultants** and they combine their professional experience and pedagogy to help you develop your skills.

What our Alumni say

“ A good practical/theoretical balance and concrete feedback. A course that enabled us to discuss our situation vs. the theory, while being supported and questioned by our trainer.

Christophe — Product Manager at UKG

“ Many thanks for this top-quality training course, with many actionable elements in the PM's day-to-day role! It's a real gas pedal for going further and becoming more efficient. I really appreciated the fact that the trainers were also PMs or Heads of Product. You can get feedback on their experiences too.
